

### **REMARKS—General**

By the above amendment, applicant has amended the specification so as to provide proper antecedent basis for the claimed subject matter.

#### **The Objection to the Specification**

As a formal matter, the drawings were objected to under 37 CFR 1.83(a) since they failed to show the plurality of chambers of claims 9 and 18, plus the creative and fanciful appliqué means of claim 10. The drawing objections are noted and corrected with new drawings submitted herewith.

As a formal matter, the specification was objected to under 37 CFR 1.75(d)(1) and MPEP § 608.01(o) since it failed to provide proper antecedent basis for the claimed subject matter in terms of the creative and fanciful appliqué means of section (d) of claim 10. The language used in claim 10 to describe this feature has been inserted into the specification at the appropriate juncture.

#### **Conclusion**

For the above reasons, applicant respectfully submits that the errors in the drawings and in the specification are corrected and that these are now in proper form. Accordingly, the applicant submits that this application is now in full condition for allowance, which action the applicant respectfully solicits.

**Conditional Request for Constructive Assistance**

Applicant has amended the specification of this application so that it provides proper antecedent basis for the claimed subject matter. If, for any reason this application is not believed to be in full condition for allowance, the applicant respectfully requests the constructive assistance and suggestions of the Examiner pursuant to MPEP § 2173.02 and § 707.07(j).

Very respectfully,

*Miriam Louise Taylor*
